ABOUT US

Qwerty System Solutions Limited is a privately owned information technology company registered in the Federal Republic of Nigeria. Our company specialises in:

- **Hardware Sales, Service and Maintenance**
- **Structured Cabling, Network Design and Implementation**
- **Computer Based Training Solution**
- **Barcode/RFID Based Inventory, Asset and Access Control Systems**
- **Extra Low Voltage Design and Implementation**
- **Electrical Power Design and Implementation**
- **Renewable/Backup Power Systems**

SCOPE OF SERVICES

Structured Cabling and Infrastructure

We offer expert installation of all Copper and Fiber Optics Cabling, Racks, Patch panels, Phone blocks and other related items. We only install the industry's best cabling hardware and take pride in all of our structured cabling jobs. We pay very close attention to make sure all cables are run using today's cabling industry standards.

CCTV and Security Systems

Our expert CCTV engineers can advise you in all aspects of using CCTV to protect your employees in the workplace, deterring crime, monitoring critical business systems, monitoring livestock or other valuable items and assisting in improving help and safety in the workplace.

Hardware Sales, Supply and Maintenance

We provide sales of all kinds of computer hardware. This we achieve seamlessly with our major technical partners HP and DELL, the biggest hardware manufacturers in the world. From regular Desktop computers of different configuration, Notebooks and laptops, Monitors, combo printers and servers to cater for all level of users from the individual to the enterprise.

SCOPE OF SERVICES

VSAT Internet Connectivity and VPN Solutions

We provide broadband internet connectivity via VSAT technology covering the whole of the African continent on C, KU and KA band. We use equipments from Global leaders in the satellite industry, **Hughes Network** and **iDirect** to deliver our services.

Barcode, Biometric and RFID

We deploy and implement Barcode and Biometric applications and devices which serve most industries requirement.

The Applications include:

Asset / Inventory Management System

Biometric and RFID Access Control System

Hotel Door Access Management Systems

Extra Low Voltage Design and Implementation

We Design and implement turn key Extra Low Voltage (ELV) for facilities private, commercial and industrial facilities. This services includes Fire Detection and Alarm System, Ethernet Structured Cabling, Closed Circuit Television Surveillance, Intercom PABX System, Satellite Television Distribution System, GSM Signal Booster.

SCOPE OF SERVICES

Electrical Power and Management

We Design, Build, Install and implement Electrical Power and Management system for effective and optimized power utilization for all level of facilities.

This includes

- Cabling and Wiring
- Electrical Power Panels
- Controller Panels
- Power Generation Management
- Street Light Installation
- Earthing Systems
- Lightening Arrestor

OUR PORTFOLIO

Since incorporation in Nigeria, we have been opportuned to provide our services to clients that are leaders in their various sectors of the economy

Client: [Toyota Nigeria Limited:](#)

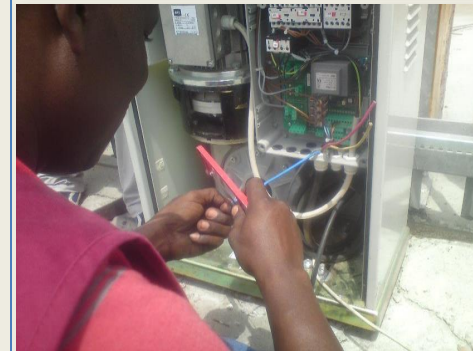

Project: Implementation of inventory management for Vehicle Warehouse using Radio Frequency Identification technology (Pilot Project),
Implementation of Mobile Asset Management system using Barcode Technology.

Year: 2011 - 2012

Client: [Honda Manufacturing Nigeria Limited](#)

Project: Implementation of Access Control,
Biometric Time/Attendance System,
Enterprise Wireless Network,
Implementation of QuickBooks ERP Solution

Year: 2013

OUR PORTFOLIO

Client: [SAPETRO, Republic of Benin](#)

Project: Design and Implementation Network Infrastructure,
Design and Implementation Wireless Network,
Design and Implementation Fire Alarm System
Design and Implementation Intrusion Prevention System
Design and Implementation Advanced PABX,
Design and Implementation IP-CCTV

Year: 2013-2014

Client: [CAST Oil and Gas Limited:](#)

Project: Design and Implementation of Wired and Wireless LAN.
Sales and Supply of High-End Desktops, Laptops, Printers etc
Implementation of QuickBooks ERP Solution
Design and Implementation of Hybrid PABX intercom System.
Design and Implementation of IP-CCTV System.
VSAT KA-Band High Speed Broadband Internet connection
Sales, Support, Service and Maintenance of all IT equipments,
Software and facilities (Server, Computers, printers, Network).

Year: 2013-2014

OUR PORTFOLIO

Client: **GLOBACOM ICT Center, Ibadan Grammar School**

Project: Design and Implementation of Wired and Wireless LAN.,
Deployment of Central Server for Computer Based Training Solutions,
Supply and Installation of 50 Windows based Computers,
VSAT C-Band High Speed Broadband Internet connection,

Year: 2012

Client: **Ikeja Electric**

Project: Implementation of Mobile Asset Management Solution using
Barcode Technology.
Motorola Mobile Computer with Laser Scanner
Pre-printed Barcode Asset Tags
Mobile Asset Software

Year: 2015

OUR PORTFOLIO

Client:

Rehoboth Bakery and Confectionery

Project:

Design and Implementation of Wired and Wireless LAN.
Design and Implementation of Fire Alarm System
Design and Implementation of Digital Television System
Design and Implementation of Hybrid PABX intercom System.
Design and Implementation of IP-CCTV System.
VSAT KA-Band High Speed Broadband Internet connection
Sales, Support, Service and Maintenance of all IT equipments,
Software and facilities (Server, Computers, printers, Network).

Year:

2016

Client:

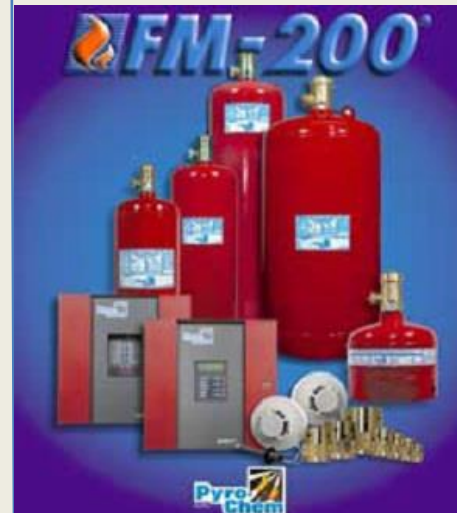

HOS Consult Nigeria Limited

Project:

Design and Implementation of Wired and Wireless LAN.
Design and Implementation of Fire Alarm System
Design and Implementation of Hybrid PABX intercom System.
Design and Implementation of IP-CCTV System.
VSAT KA-Band High Speed Broadband Internet connection
Sales, Support, Service and Maintenance of all IT equipments,
Software and facilities (Server, Computers, printers, Network).

Year:

2016

OUR PORTFOLIO

Client: [Mydas Best Western Plus Hotel, Owo](#)

Project: Design and Implementation of Wired and Wireless LAN.
Design and Implementation of Fire Alarm System
Design and Implementation of Digital Television System
Design and Implementation of Hybrid PABX intercom System.
Design and Implementation of IP-CCTV System.
Design and Implementation of GSM Signal Booster.
Design and Implementation of Fiber Uplink

Year: 2017 (On-Going)

Client: [Mydas Best Western Plus Hotel, Owo](#)

Project: Design and Upgrade of Electrical Power Distribution Cable.
Design and Implementation of Robust Earthing System.
Design and Construction of Electrical Power Panels and Controllers.
Upgrading of LV Panels

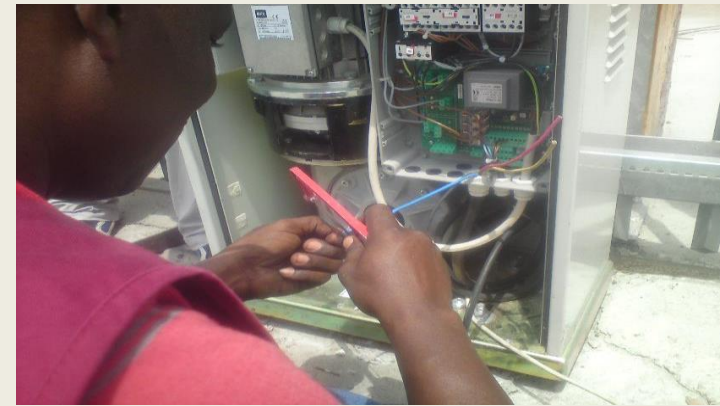

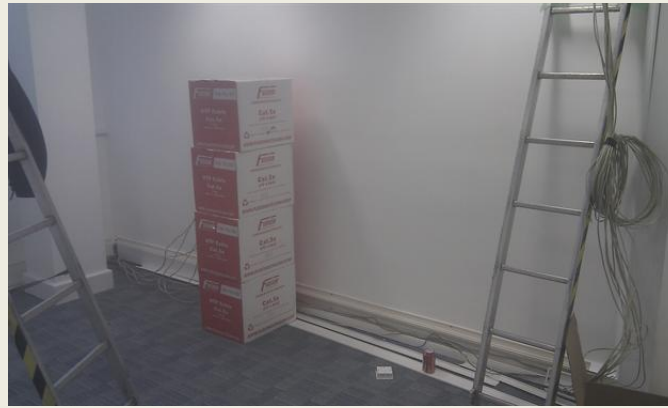

Year: 2017 (On-Going)
